HISTORIAN AND BROADCASTER

Following the success of six previous events we are delighted to announce the seventh What's Happening in Black British History **WHBBH7** workshop to be held at London University's Senate House on 26th October 2017.

WHBBH workshops aim to foster a creative dialogue between researchers, educationalists (mainstream and supplementary), archivists and curators, and policy makers. It seeks to identify and promote innovative new research into the history of people of African origin or descent in the UK, and to discuss the latest developments in the dissemination of that history in a wide variety of settings including the media, the classroom and lecture hall, and museums and galleries, thus providing an opportunity to share good practice
